

Haynes
shows you how

BMW 3-Series 320i & 320xi (12-14), 325i, 325xi, 330i & 330xi (06) & 328i & 328xi (07-14) Haynes Online Manual

5 Camshaft Position (CMP) sensors - replacement

1 Remove the air intake duct mounting bolts and duct (see [Chapter 4](#)). Disconnect the air hose as the duct is removed.

2 The CMP sensors are located in the front side of the cylinder head, under their respective camshaft ends. Ensure the ignition is switched off.

3 Squeeze together the locking lugs, and disconnect the sensor wiring plug (see illustration) .

5.3 Depress the clip and disconnect the Camshaft Position (CMP) sensor electrical connector – 3.0L engine shown, 2.0L similar

4 Remove the retaining bolt and the sensor. Recover the seal.

5 Check the condition of the seal and replace it if necessary.

6 Installation is the reverse of removal.
