19 Cruise control system - information and component replacement

Information

1 The cruise control function is incorporated into the engine management ECM/DME. The only serviceable external component is the clutch pedal switch. Problems with the system can be diagnosed with a professional scan tool at a dealer or other qualified shop.

Switch replacement

2 The clutch switch is attached to the side of the clutch master cylinder (see [Chapter 9](#)).

3 The cruise control switch is integral to the steering column multi-function switch (see [Section 15](#)).
