23 Radiator grille - removal and installation

1 Open the hood.

2 Remove the fasteners securing the air duct to the top of the radiator (see illustration 9.3) .

3 Carefully remove the sealing strip.

4 Reach through the openings to access the back of the radiator to release the clips securing the grille.

5 Take care not to scratch the surrounding paint on the front bumper cover when removing/installing the grille.

Caution: *Wear gloves when reaching through the openings.*

6 Installation is the reverse of removal.
