BMW 3-Series (92-98) & Z3 (96-98) Haynes Online Manual

10 Instrument cluster components - removal and installation

No individual components are available for the instrument panel and therefore the panel must be treated as a sealed unit. If there is a fault with one of the instruments, remove the panel (see [Section 9](#)) and take it to your BMW dealer for testing. They have access to a special diagnostic tester which will be able to locate the fault and will then be able to advise you on the best course of action.
